RE: MUSF Triathlon Splits

Dear MUSF Triathletes,

Thank you so much for participating in the great day we experienced at Miami University. Many people achieved individual successes that day, for which we are grateful, however an unfortunate glitch caused most of the split times to go unrecorded. Power surges prevented Speedy Feet consistent recording in the transition area. We're so sorry for this unexpected problem with the timing. Just so you know, Speedy Feet immediately brought in an expert to enhance the technology so this will not happen again. Thanks for understanding and we look forward to seeing you at another event in 2009.

Sincerely,

Shannon Kurek
HFP Racing
